| 14/016 | 19/05/14 | Woughton Park drainage issue | Cllr McDonald | Raised by Cllr with Ringway | action has been agreed. Daniel Mullins | Awaiting action 2015. Postponed to drier weather. Awaiting dates. Richard Freeman communicated his discussion with Danny Mullins from earlier in the year - '...to excavate in front of the headwall and see if the pipe at the headwall is coming into the ditch or going out from the ditch.' Then chased up. 17 Oct: The drainage gang have been at Newport Road Woughton Park today, investigating the ditch by Walton Lake car park. The pipe in the original headwall opposite the Parish notice board (with the metal fence on top) has been blocked with concrete so is redundant, there is a pipe under an old entrance into the paddock, they couldn't find a pipe at the north (outfall) end of the ditch. Manhole TS04 (9951 on the modern map) is not visible in the field and has probably been buried. Landscaping have an outstanding order to cut back and clear and trees between the road and hedge. There is an outstanding job on the list of work for a drain jetting contractor to jet and map the highway drains from Standing way to Foxton. In the short term the drainage gang have cleaned out the grip behind the kerb weirs and back to the ditch. | In Progress | |
