## Existing Suggestions for Passmore

### Item 1

Bushes at side of house 88 when not cut back cover Central Heating Vent/ outlet: remove and replace with grass. Current council maintenance of hedge is keeping it low with a gap between house wall and hedge. Residents would be happy if it were maintained like this. Also, happy if hedge were removed and area grassed. This would reduce council maintenance costs to grass cutting instead of hedge cutting.

Item 1

### Item 2

Cherry Tree (alongside house 11 ) roots breaking drain: remove to save maintenance costs and limit further damage to drain: cut down

Item 2

### Item 3

Side of House 11

laurel hedge next to wall (at side house 11) cut back to single layer for security and replace with grass. Current council maintenance of hedge is periodic cut hard back, only when height is very high. Council maintenance reduced to cut grass rather than very large hedge.

Item 3

### Item 4

Side of House number 60

Bushes at side of bungalow No 60 these grow across window: remove and replace with grass. If hedge were removed and area grassed. This would reduce council maintenance costs to grass cutting instead of hedge cutting. Cut back trees overhanging driveway no 60 . Safety of disabled resident, tree branches break and fall off in the wind.

Item 4

### Item 5 Ma

Area of grass, rose bed etc make more attractive Cut back width of overgrown hedges at sides , remove self set saplings.

Item 5

### Item 6

Laurel Circle: remove canal side semi-circle, replace with grass. Reduces council maintenance and better safety for people walking between cul-de-sac at night.

### Item 6

# OWPC Consultation: July 2019: Passmore Projects

## Item 7

Remove weeping willow behind 40 and 42. These have not been maintained by council and over grow house gardens reducing light levels and possible effect on foundations.

## Item 8 REMOVED

## Item 9

Overgrown shrubbery alongside house 34. Remove and replace with grass  
Residents happy to have untidy hedge removed and replaced with grass. This will reduce maintenance cost for council.

## Item 7

## Item 9

## Item 10

Hedge alongside house no 12 grows over house window. Remove and replace with grass. Residents happy to have untidy hedge removed and replaced with grass. This will reduce maintenance cost for council.

## Item 10

## item 11

Add sign to signal to houses 2 to 10. On the corner by House 10  
Residents advise delivery drivers cannot find these houses as not indicated on existing signs.

## Item 12

Tree / Coppice behind houses 12,14 &16 on the Village green are reducing light levels in these houses, Thin out branches at top of trees to allow light through. Also take out self-seeded sycamore saplings. Item 12  
Remove Elm trees ( suspect Dutch Elm disease?)

## Item 13

Trees and saplings alongside House 2. Trees are overgrown and roots are interfering with drainage pipes. Also overhanging property boundary reducing light levels in house. Plus self-seeded sycamore saplings to be removed. Cut back and thin out tree branches.

## Item 13

## Item 14 plus

Walnut Tree behind house 28 , cut back branches overhanging the property

## Item 14

## Item 15

Canal path , non towpath, tidy up , remove self set saplings and overhanging branches.

## Item 15
