

Allotment report 11 November 2019

The Patch Year

This marks the end of the first year of devolved management to the PAA.

Occupancy

As normal there is a spike of vacancies at the beginning of the new rental year but it is pleasing that many plots are being re-let as they become vacant.

Late Payments

Eight late payments of annual rental are being processed.

Fencing

A quote from the preferred fencing company shows a 16% increase from two years ago due to increased steel price. The length and position of new fencing is being assessed and an order will be placed shortly.
