

Allotment report 11 May 2020

The year so far

We have experienced a challenging start to our year with storm damage from high winds followed by the coronavirus epidemic.

Virus response

We have been guided by NSALG as to precautions regarding the safe use of allotments. The tea room and toilets have been closed. Guidance notices have been posted on the gates and the notice boards. Most tenants are being sensible, confining themselves to their own plots and observing social distancing. One or two tenants have been approached re not complying.

Occupancy

Occupancy is just over 90%. Five non-boundary plots are currently vacant but several enquiries are being processed.

Security issue

The back gate has on occasion been left open, this may be resolved by ensuring easier access to the padlock. Some bonfire smoke has been drifting towards neighbouring properties, this will be discussed at next PAA meeting, it is possible that bonfires may be banned at weekend and bank holidays.
