

Patch Allotment Report March 2024

Rentals

All rents have been paid.

Occupancy

There are still two plots available, but the recent bad wet weather has meant we have not made any recent offers. We hope once the weather improves and the ground dries somewhat these will be occupied quickly.

The current waiting list is 19 with a Parish support group at the top.

Railway sleepers

The Electric mower and as a “bundle purchase” an electric strimmer have now been presented to the Red Way School.

Storm Damage

Much of the damage has now been repaired and cleared up,

However, the extremely wet conditions of late has slowed some members in completing repairs.

Wet Ground

This is still an ongoing process, the weather does not seem to be cooperating very much, but the ground is beginning to dry.

Patch Allotment Association.
