

Patch Allotment Report January 2026

Rentals

At the cut-off date, last year (10th November) all rents had been received.

Invites have been suspended until the spring. The current weather is also not really ideal for plot viewing and rental. We are, however, still receiving enquiries.

Currently, there are 11 vacant plots, and the waiting list stands at 26.

Plot inspections.

Have now been suspended until the spring

AdvantEdge System

The renewal fee has been received and is under a short review.

Future Capital projects

P Nash will contact Ware fence to obtain Quotes to replace the roadway gate supports and to further extend the security fence around the site.

Due to a family issue the quote for the fencing has been delayed.
(Ongoing)

The remaining repair/capital projects are also still ongoing and are dependent on the receipt of suitable quotes from approached tradesmen. (Ongoing)

WATER

The whole system has been shut down for winter, a reading of the meter has been taken and relayed to the water company.
